Dear Bloomsburg University Camper Parent/Guardian;

Welcome to Bloomsburg University Summer Camp! We, the Athletic Training Staff, hope your son/daughter has a wonderful time sharpening their athletic skills. We want to take this moment to make you aware of the services that we will be providing. The athletic training room will be open at set times during each summer camp and will be staffed with a certified athletic trainer. The services that we will provide consist of CPR and First Aid, ice bags, band-aids, and referral to the Emergency Department at Bloomsburg Hospital; if needed. The hospital is conveniently located next to the campus. We will not be able to provide any preventative taping or injury therapy of any kind. It is mandatory for you to return the hospital form (health history) and insurance form that you will receive from the coaches; without this form completely filled out your child will not be able to participate at camp. This will ensure that your child receives the appropriate care if they are sent to the hospital. The form is required by the hospital since your child is a minor; it authorizes the hospital to evaluate your child as well as provides them with your child’s medical history.

We wish all campers a SAFE and FUN experience while they are here at Bloomsburg University.

Sincerely,

The Athletic Training Staff at Bloomsburg University
